Why This Form Is Important:

As a full spectrum Chiropractic office, we focus on your ability to be healthy. Our goals are, first, to address the issues that brought you to this office, and second, to offer you the opportunity of improved health potential and wellness services in the future. On a daily basis we experience physical, chemical, and emotional stresses that can accumulate and result in serious loss of health potential. Most times the effects are gradual; not even felt until they become serious. Answering the following questions will give us a profile of the specific stresses you have faced in your lifetime, allowing us to better assess the challenges to your health potential.

Your Early Years: (birth to 17yrs) *Current research has shown that many of the health challenges that occur in our adult life have their beginnings during our childhood years, some starting as early as birth.*

Chiropractic Office

INFORMED CONSENT TO RECEIVE CHIROPRACTIC CARE

The nature of chiropractic treatment: The doctor will use his/her hands or a mechanical device in order to correct vertebral and extremity subluxations. You may feel a “click” or “pop”, such as the noise when a knuckle is “cracked,” and you may feel movement of the joint. Various professionally accepted ancillary procedures, such as hot or cold packs, therapeutic exercise, neuro-muscular re-education, manual therapy, therapeutic massage or traction may also be used.

Possible risks: As with any health care procedure, complications are possible following a chiropractic adjustment. Complications could include muscle strain, ligament sprain, dislocation of joints, bone fracture, or injury to intervertebral discs, nerves or spinal cord. In extremely rare cases, cerebrovascular injury, or stroke, could occur upon severe injuries to the arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of care. The ancillary procedures could produce minor complications.

Probability of risks occurring: The risk of complications due to chiropractic treatment have been described as “rare,” about as often as complications are seen from the taking of a single aspirin tablet. The risk of cerebrovascular injury, or stroke, has been estimated at one in one million to one in ten million. The probability of adverse reaction due to ancillary procedures is also considered “rare.”

Other treatment options in lieu of Chiropractic Care that could be considered may include the following:

- **Over the counter analgesics.** The risks of these medications include irritation to stomach, liver and kidneys, and other side effects in a significant number of cases.
- **Medical care,** typically anti-inflammatory drugs, tranquilizers and analgesics. Risks of these drugs include a multitude of undesirable side effects and patient dependence in a significant number of cases.
- **Hospitalization** in conjunction with medical care adds risk of exposure to virulent communicable disease in a significant number of cases.
- **Surgery** in conjunction with medical care will complicate the condition and make future correction and rehabilitation more difficult.

I have read the explanation above of chiropractic care. I have fully evaluated the risks and benefits of undergoing chiropractic treatment. I have had the opportunity to have all my questions answered to my satisfaction. I have freely decided and choose to undergo the recommended chiropractic care, and hereby give my full consent to care and treatment.

TERMS OF ACCEPTANCE

At The New York Chiropractic Life Center, when a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal, and that is to eliminate vertebral subluxations. On a daily basis, we experience physical, chemical and emotional stresses that often accumulate and result in these vertebral subluxations, which in turn can cause a serious loss of health and well-being. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses resulting in a lessening of the body's innate ability to express its maximum health potential. Often times, the effects of these vertebral subluxations are gradual in nature and can remain undetected until they become severe. Symptoms are usually the last things to show up in the disease process and the first to disappear as the correction begins

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine, by hand or mechanical means.

Health: A state of optimal physical, mental and social well being, not merely the absence of infirmity.

We do not offer to diagnose or treat any disease. We only offer to diagnose vertebral subluxations and associated conditions. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of another health care provider that specializes in that area.

Regardless of what the disease is called, we do not offer to treat it, nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

CARE CHOICES: Patients come to our office for a variety of reasons.

Crisis/Relief Care: symptomatic pain relief (patch-up care). It corrects the most recent layer of spinal or neurological damage.

Reconstructive/Corrective Care: cause of problem corrected as well as symptomatic relief (fix-up care). Concerned with corrected years of damage that occurred when there were few symptoms

Wellness/Maintenance Care: for relief and spinal correction in addition to looking forward to maintaining heightened state of wellness and vitality.

Please choose type of care that best fits your health and life style goals.

INSURANCE POLICIES & GUIDELINES

The purpose of this letter is to let you know how our office works in the handling of your insurance claims. We do this to help eliminate any questions while informing you of all our procedures and policies in advance. This better enable us to serve your health care needs effectively and efficiently. In this way, policies can be followed as intended.

We itemize all our procedures. The reason for this is to let the insurance company personnel know exactly what was done on each visit and why. In reporting to insurance companies, we are responsible to them on your behalf to accurately inform them as to your condition, status, any complications, exacerbations, unusual circumstances, etc., that would affect your recovery. We are also responsible for letting them know how long we anticipate your care will be, and at what frequency. All this involves a tremendous amount of staff and professional time and expense. However, we do this as a service to you. It lessens your burden of having to communicate with the insurance company, it lessens the responsibility and threat regarding when insurance no longer will cover care, and it makes care easier and more enjoyable for you. All we ask is your cooperation. Our usual procedures and their cost are the recommended fees set forth by the NYS insurance guidelines and are listed separately, a copy will be provided upon request.

Because we itemize and document every procedure in accordance with insurance protocol rather than just describe what is being done as an "office visit," the charges per visit can vary depending on level of documentation & procedures per visit for the actual office visit, plus any additional charges for all special procedures performed. **For various reasons, we know that there are a lot of charges that will not be paid** by your insurance company, i.e.: maximum dollar amount limits per visit, procedures that the policy does not cover, etc. However, we still have to bill customary fees for all services we perform as required by you insurance Co. to adequately communicate with the insurance company in your best interest. It is the nature of insurance companies to question and adjust reimbursement fees.

Our experience shows that an insurance company that receives billings that describe your visit to an office as an "adjustment" or an office visit, does not understand what is being performed on that visit and why. Some have taken the position that billings sent in this generic way, without any diagnostic criteria to objectively determine what adjustment is needed on that visit, is incomplete. Insurance companies are not familiar with the principles of Chiropractic, and they look on this practice in reporting the same way they would if an MD. were to just

randomly give out shots or pills to every patient without first determining whether or not that patient actually needed anything done on that visit.

Some companies pay 100%, some pay 90%, some pay 80%, some pay 50%, some pay for x-rays but not examinations, some pay for examinations but not x-rays, some pay only for an adjustment, some pay everything BUT the adjustments. MEDICARE often pays only for 12—15 visits a year, demanding that x-rays be taken but not paying for them nor the examinations the patient must have, and the list goes on and on. We only state this so that you are aware of the practices that exist within the insurance industry.

Family care: For those patients who choose NOT to participate in our Family program, **you are responsible for your DEDUCTIBLE and all CO-PAYMENTS** do toward your patient portion that your policy demands you must pay. If you have a special financial situation that makes this difficult or impossible for you, you have only to speak to one of the staff and arrangements will be made so you can receive the care you need at a fee you can afford. We cannot, however, read minds . . . you must tell us. Then we can help you!

When you choose to participate in our Family program, any charges that your insurance company does not pay (*other than your deductible*) will NOT be billed to you. Your co pay is covered by your financial plan. We still have to report to your insurance company in a manner that informs them what is being performed, whether we are paid for it or not. **We accept only those patients we truly feel we can help regardless of condition or financial ability!!** This policy allows us to care for everybody based on THEIR NEEDS .

ANY CORRESPONDENCE THAT YOU RECEIVE FROM YOUR INSURANCE COPANY MUST BE BROUGHT TO US SO THAT WE MAY HAVE A COPY OF IT FOR OUR RECORDS (often the patient receives information that is vital to processing a claim that never finds its way to the doctor's office, such as the explanation of benefits . . . (the stub attached to a check), a scheduled independent examination, a scheduled hearing, etc. We ask that you please help us by bringing all documentation to us as soon as you receive them.

Please understand it is our purpose to obtain maximum coverage towards your care from your insurance company. In this way, we can help everybody achieve great health through chiropractic. By fully participating in the above policies, you help make this possible.

Please sign your name below indicating that you have read the above and understand it. Thank you . . .

LEGAL ASSIGNMENT OF BENEFITS AND RELEASE OF MEDICAL AND PLAN DOCUMENTS

In considering the amount of medical expenses to be incurred, I, the undersigned, have insurance and/or employee health care benefits coverage with the above captioned, and hereby assign and convey directly to New York Chiropractic Life PLLC all medical benefits and/or insurance reimbursement, if any, otherwise payable to me for services rendered from such doctor and clinic. I understand that I am financially responsible for all charges regardless of any applicable insurance or benefit payments. I hereby authorize the doctor to release all medical information necessary to process this claim. I hereby authorize any plan administrator or fiduciary, insurer and my attorney to release to such doctor and clinic any and all plan documents, insurance policy and/or settlement information upon written request from such doctor and clinic in order to claim such medical benefits, reimbursement or any applicable remedies. I authorize the use of this signature on all my insurance and/or employee health benefits claim submissions.

I hereby convey to the above named doctor and clinic to the full extent permissible under the law and under the any applicable insurance policies and/or employee health care plan any claim, chose in action, or other right I may have to such insurance and/or employee health care benefits coverage under any applicable insurance policies and/or employee health care plan with respect to medical expenses incurred as a result of the medical services I received from the above named doctor and clinic and to the extent permissible under the law to claim such medical benefits, insurance reimbursement and any applicable remedies. Further, in response to any reasonable request for cooperation, I agree to cooperate with such doctor and clinic in any attempts by such doctor and clinic to pursue such claim, chose in action or right against my insurers and/or employee health care plan, including, if necessary, bring suit with such doctor and clinic against such insurers and/or employee health care plan in my name but at such doctor and clinic's expenses.

This assignment will remain in effect until revoked by me in writing. A photocopy of this assignment is to be considered as valid as the original. I have read and fully understand this agreement.

NOTE: You need to make a choice about receiving these health care items or services.

We expect that Medicare will not pay for the item(s) or service(s) that are described below. Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, **Medicare probably will not pay for –**

Items or Services:

X– rays, therapy, nutrition, supports, pillows, massage and maintenance care

Because:

These are not covered services under Medicare guidelines

The purpose of this form is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you might have to pay for them yourself. Before you make a decision about your options, you should **read this entire notice carefully.**

- Ask us to explain, if you don't understand why Medicare probably won't pay.
- Ask us how much these items or services will cost you (**Estimated Cost: \$ _____**), in case you have to pay for them yourself or through other insurance.

PLEASE CHOOSE **ONE** OPTION. CHECK **ONE** BOX. **SIGN & DATE** YOUR CHOICE.

Option 1. YES. I want to receive these items or services.

I understand that Medicare will not decide whether to pay unless I receive these items or services. Please submit my claim to Medicare. I understand that you may bill me for items or services and that I may have to pay the bill while Medicare is making its decision. If Medicare does pay, you will refund to me any payments I made to you that are due to me. If Medicare denies payment, I agree to be personally and fully responsible for payment. That is, I will pay personally, either out of pocket or through any other insurance that I have. I understand I can appeal Medicare's decision.

Option 2. NO. I have decided not to receive these items or services.

I will not receive these items or services. I understand that you will not be able to submit a claim to Medicare and that I will not be able to appeal your opinion that Medicare won't pay.

ABOUT MEDICARE COVERAGE

The government's Medicare program only pays Doctors of Chiropractic (DCs) for limited services. If your needed Chiropractic Adjustment (manipulation treatment) meets Medicare's rules, they will usually pay for it. There are three categories of Medicare services: 1) non-covered 2) always covered, and 3) perhaps covered.

NON-COVERED

According to existing Medicare law, most of the available services in our office are NON-COVERED. Hopefully, the U.S. Congress will change that someday and treat Doctors of Chiropractic like all other doctors. Until then:

Examples of Non-Covered Services

All Services Other than Chiropractic Adjustments:

- Office Visits - to evaluate and manage, re-evaluate, advise, or counsel.
- Physiotherapy - such as massage, traction, electrical stimulation, neuromuscular re-education, etc.
- X-rays, Laboratory, Supplies, Vitamins, etc.

Various Chiropractic Adjustments:

- Adjustment on an area other than the spine - (to the shoulder, arm, leg, etc.)
- Maintenance Care - you are stable and not making any more improvement.
- Wellness Care - to promote better health.

NON-Covered items will appear on your insurance claim form. They will show as a Medicare NON-Covered service like this: "72010-GY". The "72010" code is for an x-ray. The "-GY" code means that it is not-covered, allowing your service to go through the Medicare system. After denial by Medicare, it can then go on to your other insurance. If you have Medigap insurance (also known as Medicare Secondary or Supplemental insurance) they will pay according to the terms of your contract.

ALWAYS COVERED

A typical example of a Medicare COVERED service (or clinically needed) is when you are in much pain due to a bad spinal condition. You should also expect Medicare to cover and pay for your rehabilitation as long as you are improving. When you have a COVERED chiropractic spinal adjustment (manipulation treatment), it will be shown on your Medicare claim form and payment reports as either "98940", "98941", or "98942".

PERHAPS COVERED

Your Chiropractic Adjustment must be clinically needed according to Medicare. If Medicare thinks that your condition is not "Medically Necessary" they won't pay. If we know or believe that Medicare **will not** pay for your Chiropractic Adjustment due to any rules that they might have, we will let you know. We will give you a special Medicare form known as the Advance Beneficiary Notice (ABN).

STATEMENT OF UNDERSTANDING

I understand that I am personally financially responsible for all Medicare NON-covered services. I also understand that there could be times when my chiropractic adjustments might not be covered. If so, my doctor will let me know. I am also responsible for any annual deductibles or applicable copayments as required by Medicare.
